Incredible Patience & Care!

Once a year my husband and I complete our tax & have done for years with The A Firm Redland Bay. But this year was outstanding! Driana is such a bubbly person on the phone & even more lovely in person. She has the most brilliant phone manner & is instantly likeable, but makes everything possible & does it all so promptly. Michael had the most incredible amount of patience this year, also a lovely man, so easy to get along with & a successful outcome! As a Mum of 3 young children anything in life that is straight forward makes my life so much easier. Thank you so much to Michael & Driana, you have one very happy client & will always be back each year.

My Business Is Flourishing

It was a privilege to meet The A Firm some 5 years ago after dealing with another accountant for many years, who didn't take me to the next level of where I needed to go. I have found that the team at The A Firm genuinely care about me and my business; they take me from woe to go plus take the time to explain everything to me and give the level of understanding I desire as a business owner. I'm delighted that my business is now flourish and has grown Australia wide and Internationally. If it wasn't for The A Firm, I wouldn't be where I am today.

Well, we're not your typical accountants and business advisors that's for sure!

We want to help you build your business, keep more money and enjoy a balanced lifestyle. To do this, we concentrate on 3 core aspects for our clients, namely strategy, taxation and wealth.

Many business owners are critical of their accountant because they believe they concentrate predominantly on the past. We've been complimented on being very different and thinking outside the box, as we want to help you create a better future.

We see it as a privilege to help our clients build their business and assets, so we go out of our way to meet with them regularly and virtually act as a Guardian Angel, helping steer their ship in the right direction.
